

MESSAGE FROM OUR PRESIDENT - COLIN WEBBER

Dear All

I'd just like to wish you well - your family and friends. I hope as time passes things will get better and life will return to something like normal, and we can all take time to consider what really matters to us and remember those everyday pleasures which now seem like luxuries: a trip to the bowling green, see friends, walking your dog (if you have one) and many other things.

Bowls England hope we will be able to resume our bowls come July/ August, so with that in mind we have been asked to keep our green cut, watered and fed, and ready for the resumption of play. My thanks go to Alan and Richard and any other helpers, who have been cutting and looking after it. Bowls England assures us that providing we adhere to Government Guidelines and limit the number working at the green to 2 or 3 at a time, it becomes essential work, and therefore can be undertaken.

My thanks also go to all of you who have paid your annual subscriptions. Some 80% of playing and social members have done this. As Treasurer, this has been a great help financially and left the club in a position to survive the next 12 months.

In the near future if you visit the club you may notice a new kitchen door and window (all supplied and fitted free). This has been possible by the hard work of Sandie and Kay in their endeavours to find financial sponsors.

Keep well regards to you all.

Colin
